

...the story so far

Established in 2001, we launched **tempus** clothing for salon and spa at 'Professional Beauty 2007', to great acclaim from UK and international buyers.

Tempus is lead by **Mandy Blick**, who has many years' experience of supplying apparel to the high street. Our chief stylist, **Emma Bishop**, has a strong background in textile and fashion design. Third member of the management team - **Toby Gaddum** - has supplied HTG towels and textiles to spas and salons for several years.

We are supported by dedicated staff at our Cheshire headquarters and have built lasting relationships with suppliers and customers.

Last year, Mandy was asked why tempus didn't offer salon and spa wear.

A light went on! Our search for good, modern fabrics lead us to **bamboo blend**. It's strong, soft and breathable. It also washes well and needs little ironing. In short, it's perfect for the spa, salon and leisure market.

Our styling is classic with a modern twist, in wearable,

contemporary colours. We take fashion trends and develop them for beautiful work and leisure wear. The fit is relaxed, for freedom, comfort and shape.

We're delighted to present this season's tempus clothing for salon, spa and leisure.

And what of the future?

We'll keep in touch and you'll be the first to know!

## \* Returns policy

Refunds will be given (excluding postage) on goods returned within 14 days of date of purchase, in their purchased condition.

## \* Postage & packaging

UK postage is charged at £7.00 for orders under £200.

## \* Delivery

We endeavour to always hold stock of all our styles. Please allow 5 working days for your order to arrive. Your order will be dispatched when full payment is received (unless otherwise agreed).

## \* Stain removal

All stains should be dealt with as soon as possible (same day). Do not wash before stains have been treated with a commercial stain remover, following manufacturer's instructions. Do not use bleach. Do not leave garments to soak.

## \* Sizing

Our sizes are based on the best of the high street. We have styled our garments to be a relaxed fit, allowing movement needed to carry out treatments or to exercise. Please see our size charts (p10).

## \* Embroidery

We can embroider your logo onto our garments. Just send us the artwork together with size and colours for a free quote (minimum 24 pieces).

## \* Woven garment care

Our woven garments are made from a special blend of bamboo and polyester, which is breathable and wicks moisture away from the skin for extra comfort. If snagging occurs, you can pull the loose thread through to the reverse side of the fabric. Wash at 40°C and hang to dry. No need to tumble dry as garments will feel nearly dry after washing and spinning. If ironing, iron on the reverse side of the fabric to prevent glazing.

## \* Jersey garment care

Wash at 40°C and re-shape while damp. If tumble drying required, use a low setting and tumble on the reverse side of the fabric. Always wash dark colours separately. Iron on a cool heat on the reverse side of the fabric to prevent glazing.

## \* Knitwear care

Wash at 40°C. Do not tumble dry. Re-shape whilst damp and hang to dry. Iron on a very low heat. Always wash dark colours separately. Garments are 'One Size' – other sizes available on request (minimums apply).
